

IN THE SPECIFICATION

Please replace the title of the invention as follows:

~~A VIDEO CAMERA AND A WITH LOW BATTERY WARNING METHOD THEREOF~~

Please replace the paragraph on page 6, lines 7-16  
with the following rewritten paragraph:

Also, the battery pack 20 is provided with positive and negative terminals 22 and 23, respectively, for inputting a power, which are connected with the power source line 40, and a communication terminal 23-21 connected with the communication line 30. This battery pack 20 comprises a microcomputer 24 which functions to transmit and receive data to and from the outside through the communication terminal 11, and a cell structure section 25 internally including a battery cell which supplies the video camera recorder body 10 with a power through the positive and negative terminals 22 and 23, and the like. The cell structure section 25 internally includes a plurality of battery cells which are constructed in a two-stage or three-stage structure. The status of the battery cells in the cell structure section 25 is monitored by the microcomputer 24.
